

New Beginnings

Pediatric Speech Therapy Services, PLLC

Esteemed Pediatrician,

You are receiving this introduction to New Beginnings Pediatric Speech Therapy Services, PLLC because one of your patient's parents requested that their child be seen by us.

We understand that you may not be familiar with New Beginnings although we have been serving El Paso for over five (5) years. We thank you for the opportunity to serve this patient and hope to become a preferred provider for all of your patients needing speech and language evaluations and therapy. To introduce you to our company and how we will serve your patients, we offer the following:

Our Experience:

We have over 65 years of combined experience in pediatric speech therapy in a variety of therapeutic settings. We have worked with children with an array of needs, such as Autism Spectrum, Pervasive Developmental Disorder-NOS, Attention Deficit Disorder (ADD), Attention Deficit Hyperactivity Disorder (ADHD), Cerebral Palsy, Down's syndrome, Mental Retardation, Learning Disability, Visual Impairment, Hearing Impairment, Language Delay, Language Disorder, Articulation Disorder, Stuttering, Augmentative Communication/Assistive Technology, and Voice Disorder.

Individualized therapy and family-centered intervention:

All speech therapy services are individualized and tailored to meet your patient's specific needs. We never see any patients in group therapy sessions in order to provide the best possible care for the child and for involving the family in the child's care. We believe family-centered intervention is critical to the treatment process. Parents are always allowed in our therapy setting to watch the therapist work with their child. We also offer many resources for the families of our patients to help them continue working on their child's speech goals at home.

Quality and continuity of care:

We assign a single Therapist to work with our patients from start to finish. Each Therapist manages the comprehensive care of their patients and refer to specialists if necessary. All our Therapists prepare in advance and we schedule enough time in each therapy session to work on therapy goals, to discuss progress with the child's guardian, to offer resources, and to discuss family intervention between therapy sessions. We look at the child as a whole and strive to make every therapy session effective.

We have no waiting list:

We are able to start working with any patients your office sends immediately upon receiving the referral and getting authorization from their provider.

We look forward to serving this and all your patients with speech needs. If you would like any further information about New Beginnings, please do not hesitate to contact us.
